[redacted]:Gorgeous one-storey country home in impeccable condition, only 600m from the village. This very special property is located in the natural reserve of Sierra de la Nieves, a stunning setting, surrounded by nature, natural springs, mountains and with the most fabulous views, and very peaceful. The house is accessed via electric gates and a long driveway that ends in a very large parking area. It is built on one level and has four double bedrooms, two bathrooms, a large living room with a fireplace, a dining room, a fully fitted kitchen with pantry and utility room and at the front there is a covered porch. To the rear of the property is a pool and barbecue area, a huge built covered porch and a beautifully maintained garden, plenty of fruit trees and an olive grove, the total size of the plot is over 7,000m². This really must be seen to appreciate the full tranquillity and the amazing views as well as the good quality of the build.
