Overview: This is a fabulous building plot of 1,560 m² in La Mairena with a great view over open countryside/mountains close to Schools and the tennis club etc. This is a great opportunity to construct a dream villa in a most sought after location, and is in an area occupied by other very good villas. A very important notice, is that the plot is ready to be build on, their has already been put in a foundation. a plot certainly worth buying, just got reduced from 360.000 to 299.000.
