[redacted]:Fully renovated two bedroom, two bathroom (plus cloakroom) townhouse located within just a couple of minutes walk of restaurants, shops, bowling and golf. The current owners of this townhouse have transformed it from top to bottom over the past few years creating a wonderful second home. The kitchen and bathrooms have been transformed, air conditioning units added as well as a log burner for winter evenings and effective sun shades and awnings for hot summer days. Situated on the more tranquil side of one of the area's most popular complexes, the townhouse overlooks and has direct access to one of the community swimming pools but also benefits from having its own very large garage underneath the property, a much sought after commodity in the area.
