Alto, close to world class golf courses like Valderrama. The property is indeed private with security entrance and walls and hedges surrounding the plot. A part from a strategically placed pool, a beautiful garden and lots of space for several cars, indoors as well as outdoors, you will also find a villa with chalet vibes, 4 bedrooms, three bathrooms, a walk-in closet, separate office room, a big quality kitchen and generous social areas. Well kept are the first two words that come to mind. Behind the house you will find a year's consumption of vitamin C and other nutritions that I can't spell. Lemon, tomato, egg plant, peppers - 100% ecological and delicious. This is a house like no other and should be experienced on site.
