[redacted]:Nature and architecture meld together to create spaces that understand art as a way of life. From the first Mesopotamian structures, nature has been a source of inspiration for architects throughout the ages. Design that reproduces the shapes, textures, and sensations that nature evokes is a trend in contemporary architecture now more than ever. In its path towards the light, this new development represents creation and birth. It reflects the growth and joy of youth through water, greenery, and opening up to the world. But most of all, the aesthetic sensation that it seeks to transmit is the wisdom and tranquillity that is earned with maturity. The balance of all its elements and the connection to nature make it a place where time seems to stand still. Each has its own storage room and double parking space. This stunning penthouse has an incredible terrace with its own private infinity pool and beautiful water feature. From sunrise to sunset, you can enjoy lots of natural sun light filling each room with energy and inspiration. This is the place where you wake up with a view and a feeling that the world is at your feet! Luxurious and modern architectural design has a commitment to the top quality materials, where wood and marble play the main role both in the interior and exterior. The apartments have an open plan layout, with the kitchen, living and dining areas offering a wide open space perfect for family interaction with a breathtaking view over the Mediterranean Sea. Don't hesitate to contact us for more information, floor plans, availability or to schedule a visit. Penthouse, Estepona, Costa del Sol. 3 Bedrooms, 3.5 Bathrooms, Built 203 m², Terrace 344 m².
