■■■■■■■■■■:A lovely property in the Old Town of Estepona. Located in a quaint little street only 200m from the beach and 100m away from ample parking facilities. At the moment the house has 3 double bedrooms and two large living / dining rooms so using space for added bedrooms is no problem. The house already has pre approved plans for converting the 50m2 flat roof of the house into a large sunny solarium with West facing orientation. The roof is already flat so with very minor renovation work this can easily be achieved and also at a relatively lo cost.
