The double height entrance hall leads into a spacious living and dining room with working fireplace and access out on to a covered terrace and through to the swimming pool, outdoor entertaining spaces and mature garden. Also on this level are two bedrooms with ensuite bathrooms, guest cloakroom and the large fully fitted kitchen with separate utility room. Stairs lead up to an impressive master suite with working fireplace, walk in wardrobe, luxurious bathroom and private terrace overlooking the surrounding countryside and Mediterreanean. In the basement of this property, you will find a double garage as well as a sauna and shower room. This superb family home has gated access from the street. It is not within a community and so there are no annual fees to pay.
