[redacted]:At the foot of the Sierra Bermeja located Finca with panoramic views over the Mediterranean, Africa and the beautiful surroundings. Where the birds of prey are one with nature. And only 5 minutes away from the beach and lovely Estepona. The finca is situated on a beautiful plot with many fruit and avocado trees. You enter into a fine very light sitting area. Direct access to the living room with fireplace. 3 bedrooms and a bathroom with shower. At the house there is enough parking space for several cars. The plot is divided into two separate parts!!! You can live like this but some renovation/modernisation is recommended.
