El Paraiso. It is a small community built around the communal pool and gardens where the communal areas can be seen from all the main terraces. Just a few steps from all amenities and a short walk to El Paraiso Golf Course and the beach, toroough the foot bridge. The property is offered in an impeccable state, totally reformed to very high standards and a beautiful taste. Air conditioning, double glazing and very spacious build in cupboards, among others, make this apartment the perfect place to move in. It's worth a visit!!
